Objective

As a passionate frontend developer with strong technology skills, I have valuable experience in the tech industry, developing and improving digital products and services. I am dedicated to paying close attention to user feedback, identifying behavioral patterns, and leveraging this information to improve existing projects. I'm proficient in HTML, CSS, JavaScript and frameworks like React, Next JS, React Native. I am constantly seeking opportunities to expand my knowledge and stay up-to-date with the latest industry trends and best practices. I thrive in collaborative environments, solving problems creatively and communicating well with cross-functional teams. I am eager to make a positive impact in web development with innovative and user-friendly solutions.

Education

- **Michael Okpara University, Umudike, Abia, Nigeria.** 2016
  B.Sc Computer Science

Experience

- **Hob System Digital, Port-Harcourt, Rivers, Nigeria** 06/06/2020 - 07/02/2023
  Frontend Developer
  - Developed responsive and accessible interfaces to allow visitors on any device to have the same perfect user experience using React JS while storing and managing the state through Redux.
  - Spearheaded the transition from React JS to Next JS to statically generate pages increasing website speed, performance and improving SEO.
  - Successfully integrated Paystack payment gateway into the company's e-commerce website, allowing customers to easily make payments for their purchases.
  - Implemented Google authentication, enabling users to log in to the website using their Google credentials, resulting in a seamless user experience.
  - Optimised website performance using techniques such as code splitting and lazy loading which significantly increased website speed.
  - Collaborated with other developers using git and GitHub, also worked closely with the backend team to implement and consume RESTful API's.
  - Tutored new developers on the basics and advanced concepts of web development.
  - Continuously updated technical knowledge and skills through research and online courses.

- **Codelabprojects, Abuja, Nigeria** 04/08/2023 - Present
  Frontend Developer
  - Developed responsive and scalable web applications using React JS, focusing on delivering high quality user experiences.
  - Write clean and maintainable code, following coding standards and best practices to facilitate code maintenance.
  - Collaborated closely with backend developers to integrate frontend components with server-side logic using RESTful APIs.
  - Stay updated on emerging frontend technologies and industry trends.
  - Implemented state management using Redux and Zustand for complex applications, ensuring data consistency and scalability.
  - Actively participated in Agile ceremonies including sprint planning, daily stand-ups and retrospectives.

Skills

- HTML, CSS, JavaScript (ES6+)
- React JS, Next JS, React native

- Redux, Zustand, Context API, React Hooks
- Responsive Designs, CSS preprocessors (SASS/LESS)
- TailwindCSS, Bootstrap, Material UI
- Node JS, Express JS, RESTful API's
- Git/Github
- Ability to work well with others to achieve common goals.
- Ability to effectively convey ideas and information both verbally and in writing.
- Ability to learn new tasks and information quickly.
- Agile methodologies (SCRUM)

Interests

- Programming (coding).
- Keeping up with the latest developments in technology.
- Movies, Books, Music, Football.
